

PRESIDENT INSPECTS SAFETY FIRST EXHIBIT

With Mrs. Wilson, He Looks Over Government Cars of Life-Saving Apparatus.

Washington, D. C., May 2.—President Wilson yesterday learned how to save lives. Accompanied by members of his cabinet, Secretary Tumulty and Mrs. Wilson, the president spent half an hour viewing the safety first exhibits, prepared by the government departments, and which started out yesterday, over the Baltimore and Ohio railroad, for an extended tour of the country. The president's party went to the Union station shortly before the train left and closely inspected every exhibit in the 12 steel cars. The exhibits were made up of apparatus used by the various federal bureaus in the saving of life and property.

NO IMMEDIATE RECALL OF PERSHING'S FORCES

Secretary Baker Instructs Scott and Funston That This Must Be Made Clear to Obregon.

Washington, May 2.—Additional instructions sent to Generals Scott and Funston yesterday by Secretary Baker, after a conference with President Wilson and Secretary Lansing, are understood to make plain that whatever is agreed upon at the conference with General Obregon, General Carranza's minister of war, must not be based on any immediate recall of General Pershing's forces. General Scott probably will point out to the Carranza war minister that the

DIZZINESS, CONSTIPATION

bad taste in the mouth, drowsiness or "the blues," and other miserable ailments call attention to the liver. It is torpid. Take Hood's Pills—they rouse the liver and relieve all liver ills. They are the old and favorite family cathartic. Purely vegetable. Gentle and thorough. 25c. All druggists.

de facto government is threatened by factional enemies within its own borders, who would welcome an opportunity to rise against it. If the United States were compelled to go into Mexico in considerable force to make certain the security of its own borders against bandit raids, that opportunity might be presented.

The American officers had asked for amplification of instructions received Sunday night from Secretary Baker. Officials here have described the conference up to this time as being purely of a preliminary character and for the purpose of exchanging views. No demands have been presented by either side. It is understood, however, that General Obregon laid such stress upon the withdrawal of the American forces that General Scott felt unable to proceed until he had advised the administration officials.

AGREE ON \$2,000,000

FOR NAVY AVIATION

House Committee Unites on This Amount for Development of Arm of Service.

Washington, D. C., May 2.—A \$2,000,000 appropriation for aviation was agreed to yesterday by the House naval committee. The building program will not be taken up until late in the week.

A CLEAN-UP IN CONGRESS

Early Action on Some Important Bills Promised

JULY ADJOURNMENT NOW PROBABLE

House Gives but One Day to Philippine Measure

Washington, May 2.—Another move to "speed up" the legislative programme in Congress in order that adjournment may be had as soon as possible, was started yesterday by Democratic leaders of both houses. The aim is to get the more important features of the pending state enacted into law before the national political conventions and in this the minority in Congress is expected to co-operate. The calling up of the Philippine independence bill under a special rule providing for its disposition in one day marked the beginning of the "clean up" campaign

in the House. With this bill disposed of, it is planned to hurry up action on other measures, including the Porto Rican, District of Columbia, diplomatic and consular, shipping, fortifications, rural credits, naval and revenue bills.

The Senate steering committee met yesterday to formulate a new legislative programme as the upper body's part in the "speed up" process. It is planned to take up appropriation and defense measures as soon as they are ready. Meanwhile, however, conservation and campaign publicity bills as well as other matters are awaiting disposition.

One of the problems confronting the steering committee yesterday was to find a place on the programme for the water-power bill. The measure recently was laid aside after unsuccessful efforts to get a vote on it. Passage of the bill before the Democratic convention is said to have been urged by President Wilson and Secretary Lane.

Democratic leaders on both sides of the capitol are hopeful of adjournment some time in July unless present calculations are upset.

WOULD REDUCE ACCIDENTS IN U. S. 50 PER CENT.

The Government's "Safety First" Exhibition Train Starts on Tour of the Country.

Washington, D. C., May 2.—The government's "safety first" special train left yesterday for Philadelphia, the first stopping place on an educational tour that will take it through all parts of the country.

Twelve steel cars carried hundreds of exhibits illustrative of the methods employed by the federal government in saving human life and property both at sea and on land. All the executive departments which deal with this work were represented.

Estimates of the number of persons killed and injured by accidents each year is placed at 75,000 and over 2,000,000, respectively. Government officials claim that the number of deaths and injuries can be cut in half through safety first methods, and the object of the tour is to show how this can be done.

The safety first will be opened to visitors in Philadelphia to-day. From there a few stops will be made in Pennsylvania and Delaware, and after that a swing will be made through Maryland and West Virginia, winding up in the latter state at Parkersburg. From there the train will start on its way for St. Louis. The itinerary calls for stops, among other places, at Pittsburg, Cleveland and Chicago.

ARCHIE ROOSEVELT GETS A JOB AT \$6 PER WEEK

The Colonel's Son is Going to Work in a Carpet Factory.

Boston, May 2.—Another member of the Roosevelt family is to learn the carpet industry. Following the example of Theodore, jr., who topped off his academic training at Harvard with a job in a carpet factory, Archie Roosevelt will go to work as a wool sorter for the Higelow Hartford Carpet company at Clinton, Mass., this summer.

Young Roosevelt is a senior at Harvard, where he has been one of the leaders in the preparedness movement, helping to enroll 1,000 men in the Harvard regiment. He has also been active in other college affairs, having campaigned for the managership of the football team and acted once as a super during the undergraduate theatrical season.

Though he has received offers of several good positions following his graduation, Archie Roosevelt has decided to work in a carpet factory as his brother did. His salary will be \$6 a week. As he progresses and wins promotion to work requiring greater skill his salary will be increased.

Immediately following his graduation the colonel's son will take a short rest at Oyster Bay. Then he will go to Clinton, Mass., to take up his work as a wool sorter.

GENERAL CONFERENCE OF M. E. CHURCH

An Important International Session Was Opened at Saratoga Yesterday.

Saratoga, N. Y., May 2.—The general conference of the Methodist Episcopal church, which represents Methodist churches in all parts of the world, convened here yesterday morning. Sessions will continue for a month during which the question of union of the churches in the North and South will be the principal subject of discussion. It was reported that German delegates would not be present owing to inability to leave the country for fear of enemy searchers on their ships.

Bishop Earl Cranston of Washington, D. C., presided over the first session, which was given over principally to organization.

Yesterday's National League Results.

At Chicago—St. Louis and Chicago, wet grounds.

MAGEE RANGES

More baking power with less fuel.
This result is attained by the
Magee Special Flue System

Gives an equal distribution of heat under all six boiling holes and around five sides of the oven making every part of the oven bake evenly.

Quick response to the Magee Damper places the fire under perfect control, giving you a hot baking oven in a few minutes, or checking your fire so that it hardly burns your fuel.

"It's a pleasure to bake with a Magee Range"
